

**ACUTE** (Antrim County United Through Ecology) is an informal group of stakeholders.

## **AGENDA**

### **Trichloroethylene (TCE) plume: Seeking Consensus Solutions**

**WHEN:** 10:00 AM to noon, Friday July 11, 2014

**WHERE:** In Bellaire, Shanty Creek Resort-Bellaire Ballroom Center (lower level)

**PURPOSE:** The purposes of this meeting are (1) to communicate the outcomes of recent advocacy for co-sponsoring a short-term project, and (2) to develop a framework for pursuing viable remediation concepts to reduce the amount of residual TCE in the groundwater.

#### **AGENDA:**

1. Welcome, introductions, and clarify the purpose of this meeting (Gary Knapp)
2. Review the status of a proposed collaborative funding package to implement a \$1.253 million short-term project as part of a \$5.7 million long-term comprehensive plan to upgrade the TCE-related changes in the public drinking water system:
  - a. Brief background and basis of a \$1.253 million short-term project (G. Knapp)
  - b. Status of DEQ's conditional pledge of \$0.75 million? (Bob Wagner)
  - c. Status Antrim County's \$0.25 million matching funds? (Mike Crawford)
  - d. Status of MAWSA's application for a \$0.253 million loan? (Bill Koenig)
3. Briefly review recent TCE plume migration and monitoring information (Janice Adams and Scott Kendzierski)
4. Review options for **remediating residual TCE** in this groundwater plume; proposed bench-scale testing (Joel Parker, Janice Adams, Gary Street)
5. Other topics, and Q&A, as desired and as time allows.
6. Wrap-up and next meeting?
